About Me

As a 2nd year student with a good knowledge of coding and a deep interest in the endless possibilities of technology. I have a good command in web development, and I've been able to create websites. My fascination with technologies leads me to be a Greek enthusiast . Moreover, my interest in research in computer vision drives my academic pursuits. Eager to contribute my skills to real projects, I am committed to expanding my horizons in both technical and research fields.

Education

SRM Institute of Science and Technology, Chennai CGPA:9.52

Bachelor of Technology in Computer Science, CSE Core *Expected 2026*

Partap World School, Pathankot CGPA: 9.32

High School (Class 11th and 12th) *2020-2022*

Technical Skills

Languages: Python, C/C++, SQL, JavaScript, HTML/CSS, Java
Frameworks: SQL , MongoDB, Node JS
Developer Tools: VS Code, Git, MongoDB Compass, SQL Workbench, Python Libraries: pandas, NumPy ,Canva, MS Ofiice(Word, Excel,Power Point)
Soft Skill: Team Management, Public Relation ,Presentation , Analytical skill, Logical Analytics
Language: English, Hindi

Experience

Web Development Intern March 2024 – Present

Bharat Intern *Online*

- Within this role, I've been immersed in various facets of web development, acquiring hands-on experience, and honing my skills in crafting robust and user-friendly digital experiences.
- Leveraging the latest tools and technologies, I've delved into front-end development, mastering languages such as HTML, CSS, and JavaScript to design visually appealing and responsive interfaces.
- I've delved into back-end development, gaining proficiency in frameworks like Node.js and Express.js to create dynamic and scalable web applications.
- Throughout my tenure, I've collaborated closely with multidisciplinary teams, contributing to the development and refinement of Bharat Intern's online platform.

Full Stack Development Intern March 2024 – Present

Bharat Intern *Online*

- I've had the privilege of immersing myself in both front-end and back-end development, gaining comprehensive insights into the entire web development process.
- On the front-end front, I've delved into crafting visually engaging and intuitive user interfaces using a combination of HTML, CSS, and JavaScript. Through responsive design techniques and frameworks like Bootstrap, I've ensured seamless user experiences across various devices and screen sizes.
- my exploration into back-end development has involved mastering technologies such as Node.js and Express.js. Leveraging these frameworks, I've built robust server-side architectures, handling data processing, authentication, and API integration with finesse.
- Collaborating closely with cross-functional teams, I've contributed to the development and refinement of Bharat Intern's online platform, from conceptualization to deployment.

Projects

Text Based Adventure Game| *Python, Python library- Tkinter , SQL , Git* •.

- Worked on developing an adventure game which progress by the choices make by user through text.
- The project aims to build a game which work as the user want with the GUI interface which make it more interactive.

Weather Website | *HTML, CSS, Java Script, Git ,API*

- Developed a web application using Html , Css , Js to tell the current Weather forecast of different areas through API integration.
- Designed and developed for people to see the current weather anytime and anywhere.

Money Tracking Website| | *HTML, CSS, Java Script, MongoDB, Git*

- Developed a web application using Html , Css , Js and MongoDB to manage the money expenditure by the users.
- Created the large dataset for the user to store and manage their data.

Certifications

NVIDIA DLI Certificate – Getting Started with Deep Learning

NVIDIA Deep learning Institute

- Link to Certificate
- Completed NVIDIA's Deep Learning Institute (DLI) Certificate - Getting Started with Deep Learning, proficient in foundational concepts of deep learning, implementing neural networks for various applications, and leveraging GPU acceleration for enhanced performance.

AWS Academy Graduate - AWS Academy Machine Learning Foundations

Amazon Web Services (AWS)

- Link To Certificate
- Graduated from AWS Academy's Machine Learning Foundations program, proficient in implementing machine learning solutions on AWS, optimizing models for performance, and deploying them effectively for enhanced applications.

Fundamentals of Accelerated Computing with CUDA Python

NVIDIA Deep learning Institute

- Link To Certificate
- Acquired in-depth knowledge and practical skills in designing, training, and deploying state-of-the-art transformer architectures for tasks such as language understanding, text generation, and machine translation.

Extra-Curricular

Quantum Computing Club SRM November 2022 – Present

Web Dev Member

Cherry Plus Club SRM August 2023 – Present

PR team Member

Class Representative July 2023 – November 2023

3rd Semester

Honour & Awards

- Successfully able to get the NPTEL Certificate for JAVA Programming among 1000 students
- Finished in top 25 in the Aryabhatta National Maths Competition
- Participated in various Olympiads such as ISO, IMO, IEO
- Finished in Top 8 in Badminton Cluster North Zone as a School Team
